Lesson Levels:

LEVEL 1 |

For children who cannot swim at all. This class emphasizes water orientation, basic water safety and developing a comfort level with the water in preparation for beginning to swim.

LEVEL 2 |

For children who are comfortable in the water, can float with some assistance, and are ready to learn the basic skills for moving forward in the water. They can swim at least 3 feet with assistance.

LEVEL 3 |

For children who can swim 10 feet without assistance. Students learn to recover for a breath while swimming, and to float without support and recover to a vertical position. This level marks the beginning of extending the distance that a child can swim.
